PROFESSIONAL SUMMARY

Effective Student committed to learning, developing skills in Software Engineering, and team contribution. Excellent analytical, problem-solving, and critical thinking abilities, as well as good writing and verbal communication. Self-directed and energetic with superior performance in both autonomous or collaborative environments working independently and collaborating with others on group projects in a fast-paced, collective-based environment. Good understating of Computer Science fundamentals, data structures, and algorithms, good eye for aesthetics, and for providing the best user experience. A talented person with an industrious and systematic approach eager to learning information and new technologies, a good sense of humor and obsessed with enjoying while working and smiling at every person.
